

New web interface at ITG-Hosting

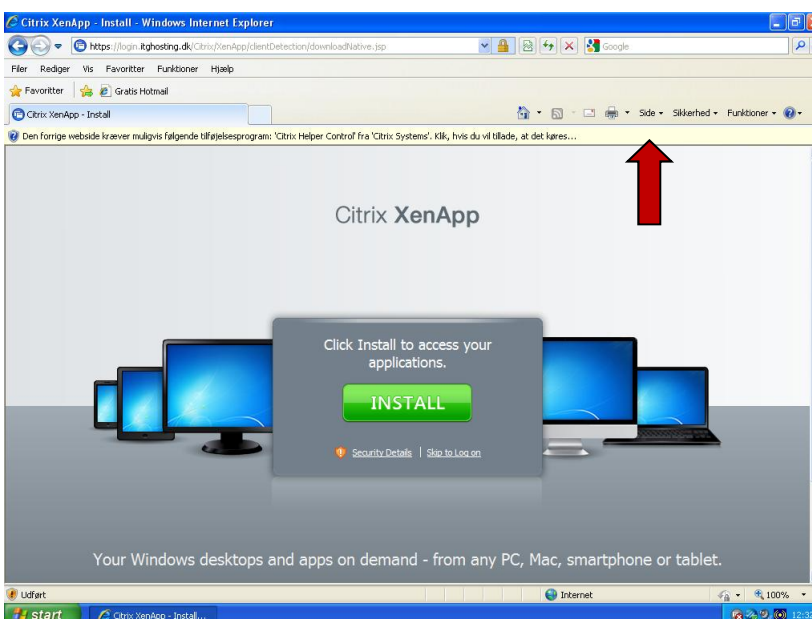

We implement a new web interface for login to your citrix appliactions

If you have old links/shortcuts on your desktop to the old web interface – please delete them.

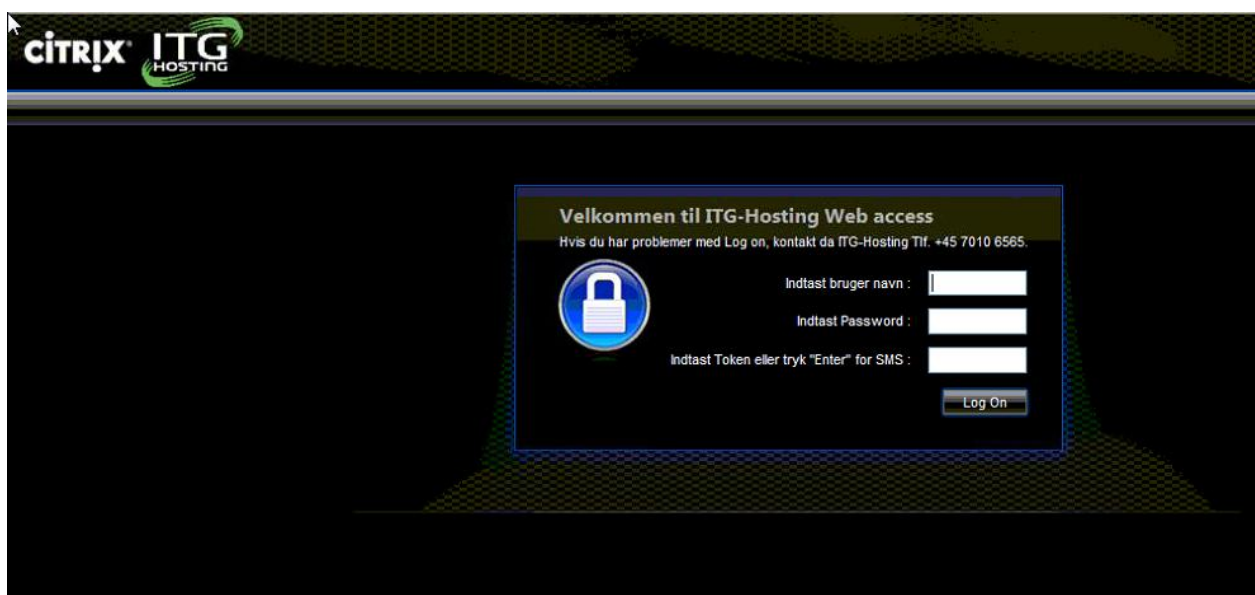

Write www.itghosting.dk in the Internet Explorer address bar – and choose "login"

Are you getting the picture below, click on the little yellow linebar – and chose "run in the little box coming up. (this is only the first time you log on to the new web interface)

You will then get to our new web interface

Now you can enter your username and password.

If you use a token – please enter the code in the lower box.

If you use SMS-passcode press the Log On button, after typing your username and password.

Then you will get the picture to the SMS-Passcode, where the code that you receive by SMS is entered. Then press "Submit"
